

Home-Based Child Care Expansion
SFY 2013 Grant Agreement Recommendations for the Yuma Regional Partnership Council

GRA-RC006-13-0537-01

Applicant	Amount Recommended	Description of Program & Rationale for Recommendation
Child and Family Resources	\$15,000	<p>Recommendation: This procurement agreement is recommended for award.</p> <p>Rationale: Child and Family Resources is the current FTF-grantee providing Home-Based Child Care Expansion services in the region. The SFY 2013 proposal and prior performance demonstrate the necessary existing capacity, partnerships and infrastructure to implement the program as described are already in place. Existing staff are highly qualified and contracted service units have consistently been met under the current contract.</p> <p>Brief Description: Child and Family Resources recruits home-based child care providers and assists them with state certification processes. They also provide incentives to increase the recruitment and retention of these homes. Home-based providers experience a number of expenses during the certification process which may cause them to decide to opt out of child care certification. One of these expenses is the increased costs of liability insurance for newly certified home-based providers. The strategy provides assistance with the first year of liability insurance to home-based providers serving children from birth through age five. Child and Family Resources will target up to 25 Home based providers.</p>
