Share the link with co-workers so they can get the information too.

Use the following talking points from the new 2013 communication plan to start conversation about Early Childhood with Friends/Family members & co-workers:

~DID YOU KNOW?~

"90% of a child's brain develops by the time they are 5 years old. So, the job of helping kids get ready for school starts the day they're born. "

"To date, FTF has dedicated more than \$630 million to support strong families, improve early learning opportunities for kids birth to 5 years old and promote better health for young kids."
