8. The best thing about the scholarships was: *(Please use back if additional space is needed)*: **“Easy to qualify which relieved stress to keep children going to only sitter they have ever known.” “Able to continue work with a cut in hours & still have daughter receive excellent care.” “My children are learning English.” “The emergency funding was a miracle! We did not know how we would be able to continue paying for child care.” “My son’s child care provider offered it to us. We are on a very low fixed income and it is a constant struggle the last year.” “It allowed me to continue working as we are now dependent upon my income to keep our home.” “Knowing my child was with someone who cares about him.” “It allowed for my child to stay in school that we could not afford otherwise with the tuition hike.”**
9. If I could change one thing about the scholarships, it would be: *(Please use back if additional space is needed)* **“Last longer.” “Nothing.” “To have different pay brackets of assistance to stretch the funds out longer.” “How quickly the provider is paid.” “For it to continue.” “To provide more funding so others might be blessed.” “Nothing except for a longer program.” “To prolong it, even if it is just a partial scholarship to offset the cost of daycare.” “If there was more money so my children could receive more education.”**
10. Additional comments: *(please use back if additional space is needed)* **“The program is excellent. I hope the program will continue over the next year. Thank you for the help.” “Thank you.” “Thank you for giving me this scholarship so I could continue working.” “As you are well aware of our economic turmoil, I was faced with the choice of losing out home if I didn’t find work. I was able to obtain a part time job as jobs are very hard to come by in our area. Unfortunately, without a scholarship, or subsidized child care, I will have to leave my job as it doesn’t pay enough to cover the cost of care.”**
