TOP 3 NEEDS IDENTIFIED:

- Support for families and parents through education on child development, parenting skills, and greater involvement early in a child's life.
- Assistance for children and families in hardship through child care, food assistance, and economic supports such as employment, education and professional training.
- Coordination among all providers to increase the coordination of and improve the services of social, emotional and mental health supports.

TOP 3 ASSETS IDENTIFIED:

- Indian Health Services
- Maternal Child Health (First Things First)
- Parenting Groups and Health Initiatives

"DREAMS" FOR HUALAPAI:

- Happy, Healthy Safe Children
- Living the "Hualapai Philosophy"
- Everyone Knowing the Language
- Employment Opportunities
- Safe Recreational Activities for all age groups
- Hunger Eradicated
- All moms breastfeeding and "baby friendly" hospitals
- Safe, clean, sober, friendly living environment
- Cooking and Nutrition with traditional foods
- Lower Poverty
