What is the Arizona Early Childhood Development and Health Board (First Things First)?

In November 2006, Arizona voters passed Proposition 203, also known as **First Things First**, a citizen's initiative that funds quality early childhood development and health at the state and local level. The Proposition created a new state level board known as the Arizona Early Childhood Development and Health (AzECDH) Board, also known as the Board of First Things First, and the Regional Partnership Councils.

First Things First Mission

The mission of First Things First is to increase the quality of, and access to, early childhood programs that will ensure a child entering school arrives healthy and ready to succeed. This mission will principally be achieved through regional grants tailored to the specific needs and characteristics of the communities that the regions serve with a focus on demonstrating improved outcomes around First Things First's six goal areas given the challenges the regions face. This mission is also accomplished through statewide initiatives that have been prioritized by the Board of First Things First.

This statewide policy and regional perspective are critical to the success of the First Things First mission. Early childhood development and health system initiatives from First Things First will be coordinated through statewide initiatives and regional priorities.

First Things First Goal Areas

The First Things First initiative specifies that programs undertaken by the Arizona Early Childhood Development and Health Board and the Regional Partnership Councils are to accomplish one or more of the following Goal Areas:

- Improve the quality of early childhood development and health programs.
- Increase the access to quality early childhood developmental and health programs.
- Increase access to preventive health care and health screenings for children through age five.
- Offer parent and family support and education concerning early childhood development and literacy.
- Provide professional developmental and training for early childhood development and health providers.
- Increasing coordination of early childhood development and health programs and provide public information about the importance of early childhood developmental and health.

What is the Funding Source?

The First Things First Initiative provides for the distribution of funding through both statewide and regional grants.

Of the monies expended in a fiscal year from the First Things First program account, no more than ten percent may be used to fund statewide grants or programs. Statewide programs are

considered those implemented across regional boundaries and are designed to benefit Arizona's children as a whole.

This Request for Grant Application is specifically dedicated to funding regional programs. Regional funding is based on the approval of the Regional Partnership Council funding plans submitted to the Board of First Things First. Funding is allocated to each Regional Partnership Council based on the population of children aged five or younger and the population of children aged five or younger whose family income does not exceed 100% of the Federal Poverty Level.

The Regional Partnership Council(s) that are involved in the release of this Request for Grant Application include the following:

- Cochise Regional Partnership Council

Who is Eligible to Apply for this Funding Opportunity?

First Things First awards grants to:

- Non-profit 501 (c) (3) organizations providing services in Arizona (both secular and faith-based)
- Units of Arizona government (local, county and state entities as well as schools and school districts)
- Federally recognized Tribal governments or entities providing services within Arizona
- Arizona institutions of higher learning (colleges and universities)
- Private organizations providing services in Arizona

All potential Applicants must demonstrate organizational, fiscal and programmatic capacity to meet the requirements described in the scope of work listed in this RFGA.

What is the Total Funding Amount Available in this Request for Grant Application?

This is a twelve (12) month contract with an option for renewal for two (2) additional twelve (12) month periods. Total funds available are approximately \$100,000 for the first funding period. First Things First reserves the right not to award the entire amount of available funds or to award an amount that is greater than the posted available funds. Renewal will be contingent upon satisfactory contract performance, evaluation and availability of funds. One or multiple awards may be made, with an estimated average award of \$25,000 per program.

Scope of Work: What Will This Grant Fund?

The Cochise Regional Partnership Council (RPC) has identified the need for for regional implementation of the following strategies: 1) provide education, information and support to parents, child care staff, and the community to promote healthy eating and physical activity among young children and diminish the incidence of overweight and obesity or 2) implement interventions targeting nutrition, healthy weight and physical exercise into existing community services for children birth through five.

The Cochise Regional Partnership Council encompasses the entire Cochise County. Programs funded under this RFGA must serve children birth through five years and their families that reside in Cochise County. Applicants are asked to give special consideration for targeting families in rural, more remote areas of the region, pregnant women, or a subset of this population. Applicants will need to demonstrate that their services are targeted to families of young children who are at risk for obesity, diabetes, or poor physical activity and nutrition. Native Americans, African Americans and Hispanics are typically among the sub-populations considered to be at risk for obesity.

The Centers for Disease Control and Prevention (CDC) refers to the number of overweight/obese adults and youth as reaching “epidemic” proportions in this country. In the United States, the prevalence of childhood overweight tripled between 1980 and 2000. Nationally, there has been a four-fold increase in the proportion of six through eleven year-olds who are overweight over the last 40 years. Arizona has the second highest rate of childhood obesity in the Nation. More than one-third of all children in Arizona are obese. According to the 2003 National Survey of Children’s Health, 30 percent of children age 10 through 17 were overweight or at-risk for becoming overweight in Arizona. In Arizona during 2005, 36 percent of children ages two to five receiving Arizona Women, Infants, and Children (WIC) services had a Body Mass Index (BMI) at or above the 85th percentile (i.e. overweight or at-risk for becoming overweight). The prevalence of overweight varies by weight and ethnicity. In 1999-2002, 14 percent of non-Hispanic White adolescents, 21 percent of non-Hispanic African American adolescents, and 23 percent of Mexican-origin adolescents were overweight.

Obesity in children is directly linked to many serious health problems, such as type 2 diabetes, metabolic syndrome, high blood pressure, asthma and other respiratory problems, sleep disorders, liver disease, heart disease, eating disorders and skin infections. Physical activity is an important component of chronic disease prevention and weight management. However, less than one out of three children ages six through 17 in Arizona were reported to get at least 20 minutes of vigorous physical activity every day. One in ten did not get vigorous activity on any of the last seven days. The establishment of healthy eating patterns early in life also minimizes the risk of developing chronic disease such as cancer, heart disease, obesity, disease and osteoporosis. Every day, more than 13 million preschool age (three to five years) children are in child care settings. With regards to nutrition, improvements in increasing the availability of fruits and vegetables, reducing the use of fried foods, sugar-sweetened beverages, and introducing overall nutrition policies will benefit children birth through age five.

Implementation Requirements:

This Request for Grant Application is seeking applicants to address these specific Goals and Key Measures:

First Things First Goal Area to be addressed:

- Health

First Things First Goals to be addressed:

- FTF will collaborate with existing Arizona childhood health care systems to improve children's access to quality health care.
- FTF will coordinate and integrate with existing education and information systems to expand families' access to high quality, diverse and relevant information and resources to support their child's optimal development.

First Things First Key Measures to be addressed:

- Percentage of families with children birth through age five who report they are competent and confident about their ability to support their child safety health and well-being.
- Percentage of families with children birth through age five who report they are satisfied with the accessibility of information and resources on child development and health.

In providing a comprehensive approach to this strategy, Applicants should plan for implementation around the following activities:

- Develop and disseminate information to parents on appropriate nutrition and/or physical activity for infants and young children ages birth through five
- Implement programs in early care and education-based settings aimed at promoting appropriate nutrition and/or physical activity for young children
- Expand or create nutrition and physical activity programs in the community targeted to children ages birth through five and pregnant women
- Increase medical professionals' use of recommended guidelines (such as http://www.sne.org/Chi_Obesity.pdf. Guidelines for Childhood Obesity Prevention Programs : Promoting Healthy Weight in Children and Center of Disease Control for preventative medical care around the areas of nutrition and obesity prevention

In implementation of the proposed program, applicants must refer families whose children are at high-risk of Type II diabetes or severely obese to geographically and financially accessible health services providers in addition to providing information on the availability of public health insurance programs to families whose children are eligible but uninsured.

Applicants should establish networks and partnerships with community organizations, including early care and education and health providers in the region (including pediatricians), community health centers, schools, and early care and education providers (including Head Starts, school based preschools, Title I Even Start programs, etc.), serving children birth through five and build on existing services that are limited to adults by supporting their expansion to include children ages birth through five, as appropriate. Applicants will be asked to demonstrate their experience collaborating with and coordinating efforts among state, Tribal agencies, community health clinics, local public health programs, local hospitals, and social

service agencies as well as demonstrate experience working with state, Tribal, and national models surrounding childhood obesity in child care settings.

Applicants must describe the program curriculum or model to be used and explain how programs provided will be culturally and linguistically appropriate based on the population being targeted. Preference will be given to applicants who propose strategies that are evidence-based and provide a description of the research showing positive programmatic outcomes. Staff implementing the curriculum or model program must be adequately trained and qualified. Efforts should be made by programs to provide outreach to, recruit and retain participants that may be in isolated or rural areas of the region.

If implementing a national model, it is expected that evaluation tools within that model will be utilized. Expenses for the purchase of evaluation tools, training, and staff to complete the data collection should be included in the total budgeted amount available for the service. Any additional evaluation tools that are created by the Applicant must be approved by FTF evaluation staff prior to use.

Coordination and collaboration with all FTF grantees is critical to developing a seamless service delivery system for children and families. Services and programs cannot be implemented in isolation and coordination and collaboration must occur within a region and across regions. FTF staff and Regional Councils will identify opportunities for collaboration and coordination with successful applicants that become grantees of First Things First. Successful applicants will be required to attend meetings and workgroups in the region being served to identify, develop and implement mechanisms around coordination and collaboration. Successful applicants will also be required to share data with First Things First and the Regional Partnership Council that will be used for cross regional analysis. Successful applicants will also participate in cross regional and statewide work that may include additional workgroups and meetings. In order to accomplish these tasks, applicants should plan the appropriate budget that would include travel for monthly meetings within the regional area, four cross regional meetings/workgroups held in various locations, and one statewide meeting to be held in Phoenix, Arizona. All travel related costs for these trainings and meetings should be included in the applicant's budget and calculated using the State of Arizona travel policy as described on the budget narrative worksheet.

Any evaluation efforts should be directly connected to the Goals, Key Measures, and the Performance Measures and should determine the extent to which the program has accomplished the stated goals and key measures. The evaluation should also measure program

fidelity by assessing which activities were implemented and the quality, strengths and weaknesses of the implementation. Successful Applicants agree to participate in the First Things First evaluation and will meet the requirements of the evaluation including, but not limited to, timely and regular reporting and cooperation with all First Things First evaluation activities. Timely and regular reporting of all performance and evaluation data includes the electronic submission (through the First Things First secure web portal) of performance measures and other evaluation data as proposed by the Applicant in this Request for Grant Application. Performance measure data must be submitted in its raw form (e.g. number of children served/proposed service number = 52 actual children served/50 proposed service number).

Successful Applicants are also required to collaborate with the First Things First longitudinal evaluation. The provider must participate in child assessment activities associated with the longitudinal evaluation including tracking and reporting to First Things First data pertaining to participant attendance, enrollment, and demographic information, all of which must be maintained in a secure and anonymous manner. In addition, Applicants agree to allow First Things First and evaluation consultants of First Things First to observe program activities on site and obtain parent consent for data collection related to evaluation efforts.

Performance Measures are defined by First Things First to determine the key impacts of the strategies, programs and approaches being implemented. Applicants are expected to collect and report data to First Things First on the progress of achieving the Performance Measures.

The specific Performance Measures identified by the Regional Partnership Council for this funding opportunity are as follows:

Performance Measures:

- Number of children enrolled in nutrition and recreation course/Proposed service Number
- Number of children enrolled in nutrition and recreation programs/ Number of children completing nutrition and recreational programs
- Percent of children participating in the programs participating in cumulative intermittent physical activity for 60 minutes per day (pre and post test)
- Number of parents who report increase in physical activity six weeks after care/Actual service number.
- Percent of children participating in the programs who have increased their awareness of physical activity, available resources, and how to get involved in enjoyable, lifelong physical activity (pre and post test)

- Number of families reporting satisfaction with provided services (minimum questions provided by First Things First staff)/actual service number
- Percent of children aged two years and older who consume at least two daily servings of fruit and at least three daily servings of vegetables with at least one-third being dark green or deep yellow vegetables
- Percent of children who are a healthy weight (pre and post test)

1. Duty to Examine. It is the responsibility of each Applicant to examine the entire RFGA, seek clarification in writing (inquiries), and examine its' Application for accuracy before submitting the Application. Lack of care in preparing an Application shall not be grounds for modifying or withdrawing the Application after the Application due date and time, nor shall it give rise to any Contract claim.
2. RFGA Contact Person. Any inquiry related to an RFGA, including any requests for or inquiries regarding standards referenced in the RFGA shall be directed solely to the RFGA contact person. The Applicant shall not contact or direct inquiries concerning this RFGA to any other State employee unless the RFGA specifically identifies a person other than the RFGA contact person as a contact.
3. Submission of Inquiries. The Grants and Contracts Procurement Specialist identified in this RFGA, who is the contact for all inquiries except at the Pre-Application Conference, requires that an inquiry be submitted in writing. Any inquiry related to the RFGA shall refer to the appropriate RFGA number, page and paragraph. Do not place the RFGA number on the outside of the envelope containing that inquiry, since it may then be identified as an Application and not be opened until after the Application due date and time. Electronic inquires are acceptable. First Things First shall consider the relevancy of the inquiry but is not required to respond in writing.
4. Timeliness. Any inquiry or exception to the RFGA shall be submitted as soon as possible and should be submitted at least seven days before the Application due date and time for review and determination by First Things First. Failure to do so may result in the inquiry not being considered for an RFGA Amendment.
5. No Right to Rely on Verbal Responses. An Applicant shall not rely on verbal responses to inquiries. A verbal reply to an inquiry does not constitute a modification of the RFGA.
6. RFGA Amendments. The RFGA shall only be modified by a formal written RFGA amendment. Formal written amendments are posted on the First Things First website, www.azftf.gov. It is the sole responsibility of the Applicant to check the website regularly.

Any doubt as to the requirements of the RFGA or any apparent omission or discrepancy should be presented to First Things First at the Conference. An Applicant may not rely on any verbal responses to questions at the Conference. Material issues raised at the Conference that result in changes to the RFGA shall be answered solely through a formal written RFGA amendment. **Attendance at the Pre-Application Conference is strongly encouraged, but not mandatory.**

BUDGET NARRATIVE EXPLANATION

The purpose of the budget narrative is to provide more clarity and detail on the various budget line items. The budget narrative should explain the criteria used to compute the budget figures on the budget form. Please verify that the narrative and budget form correspond and the calculations and totals are accurate.

Personnel: *(Include information such as position title(s), name of employee (if known), salary, time to be spent on this program (hours or %), number of months assigned to this program, etc. Explain how the salary rate for each position was determined. If salaries are expected to increase during the project year, indicate the percentage increases for each position and justify the percent of the salary increase. Also, be sure to include the scheduled salary increases on the Budget Form.)*

Fringe Benefits: *(Include a benefit percentage and what expenses make up employee benefit costs. Indicate any special rates for part-time employees, if applicable. Explain how the benefits for each position were determined. If using a fringe benefit rate, explain how this percentage is justified or approved by your agency.)*

Contracted Consultant/Professional Services: *(If professional consultants/services costs are proposed in the budget, define how the costs for these services were determined and the justification for the services related to the project. Explain how all contracts will be procured.)*

Travel: *(Include a detailed breakdown of hotel, transportation, meal costs, etc. Indicate the location(s) of travel and the justification for travel, how many employees will attend and how the estimates have been determined. Explain the relationship of each cost item to the project (e.g., if training or training expenses are requested, explain the topic of the training and its relationship to the project). Applicants **must** use the State of Arizona Travel Policy on rates for mileage, lodging, and meals (www.gao.state.az.us/travel/).*

Pass Through/Sub grants: *(In the event that this Application represents collaboration and the contract will be utilizing other sub grantees to perform various components of the program, include a list of sub grantees, programmatic work each sub grantee will perform, and how costs for each sub grantee are determined).*

Supplies and Operating Expenses: *(Explain each supply item to be purchased, how the costs were determined and justify the need for the items. Items with a unit cost less than \$5,000 are considered supplies and should be listed in this category. All purchases should be made through competitive bid or using established purchasing procedures.)*

Administrative/Indirect Costs: *(Administrative costs are general or centralized expenses of overall administration of an organization that receives grant funds and does not include particular program costs. For organizations that have an established federally approved indirect cost rate for Federal awards, indirect costs mean those costs that are included in the organization's indirect cost rate. Such costs are generally identified with the organization's overall operation and are further described in 2 CFR 220, 2 CFR 225, and 2 CFR 230.)*

Applicants must list either Option A or Option B and provide proper justification for expenses included.

Option a: Administrative Costs: with proper justification, sub grantees may include an allocation for administrative costs for up to 10% of the total direct funds requested of the grant request. Administrative costs may include allocable direct charges for: costs of financial, accounting, auditing, contracting or general legal services; costs of internal evaluation, including overall organization's management improvement costs; and costs of general liability insurance that protects the organization(s) responsible for operating a project, other than insurance costs solely attributable to the project. Administrative costs may also include that portion of salaries and benefits of the project's director and other administrative staff not attributable to the time spent in support of a specific project.

*Option B: Federally Approved Indirect Costs: If your organization has a federally approved indirect cost rate agreement in place, grantees may include an allocation for indirect costs for up to 10% of the grant request. **Applicants must provide a copy of their federally approved indirect cost rate agreement.** Indirect costs are costs of an organization that are not readily assignable to a particular project, but are necessary to the operation of the organization and the performance of the project. Best Practice is used to describe the process of developing and following a standard way of doing things that multiple organizations can use for management, policy, and especially software systems.
