WHAT IS THE FIRST THINGS FIRST SOUTH PHOENIX REGIONAL PARTNERSHIP COUNCIL CARE COORDINATION GRANT PROGRAM?

The South Phoenix Regional Partnership Council has identified the need for regional implementation of the following strategy:

- Increase children's access to preventive health care through Care Coordination thus connecting children and families to appropriate health services and supports

First Things First is seeking applicants to establish or expand an administrative home that will provide Care Coordination services, based on successful models used in other states to assist high-risk families in the region to access basic health services for their young children and assist with enrollment and maintenance of health insurance coverage. Care coordination services could be delivered in a variety of settings such as physician offices, hospitals, community health centers or other community based organizations.

In order to address these issues and in collaboration with First Things First's goal to build on current efforts to collaborate to improve children's access to quality health care, and build on current efforts to increase the number of health care providers utilizing a medical home model, the South Phoenix Regional Council seeks to provide care coordination of needed services to families that reside or receive services in the region.
